- Compatible with pallets, totes, boxes or trays

OPTIONS

- Manual or a combination of manual and automated controls
- Static shelves or integrated rollers
- Custom hoist
- Powered load/unload coming soon

Product Lift with
Variable Speed Control

HOW THE MSRS WORKS:

1. Push the lift to move horizontally down the row to desired column.
2. Lock the lift rails into place for stability.
3. Using the variable speed hand control, vertically move the lift to desired shelf.
4. Raise the release handle on the shelf and slide the product in and out of the shelf.
5. Release the safety stop to transfer product to cart or conveyor system.

Integrated Rollers &
Safety Stop

Safe and Secure Material Handling

COMMON APPLICATIONS:

Stock Replenishment
Order Fulfillment
Work in Process Storage
Finished Goods Storage
Product Testing
